Launch of Sammy's Pachinko Machine "CR Super Jetter"

Fields Corporation (Head office: Shibuya-ku, Tokyo; President and CEO: Hidetoshi Yamamoto) announces the nationwide release of Sammy Corporation's pachinko machine "CR Super Jetter." Details of this release are given below.

The new pachinko machine "CR Super Jetter" features the character made famous in the 1960s hit television program *Super Jetter*, a science fiction anime revolving around the theme of time travel. This television program incorporated a wide range elements found in serious science fiction, including the concept of time travel, innovative storylines, and a variety of futuristic weapons. The character Super Jetter was a tremendously popular super hero among children of that period.

The hopes and dreams of the world of Super Jetter, the boy from the future who fights for world peace, are successfully recreated through the fast-paced, state-of-the-art graphics of this new machine.

In the game "CR Super Jetter," the young super hero is shown zooming through the air in his aircraft *Ryusei-go* (Shooting Star), using his time device Time Stopper, and fighting off evil with a whole arsenal of 30th century weapons, providing players with non-stop, breathtaking thrills.

"CR Super Jetter," which recreates tales of a hero's love and courage that were the dream of so many children, will provide great enjoyment for not only regular enthusiasts of pachinko, but also for a very wide range of players, including devotees of science fiction anime.

Plans call for pachinko fans throughout Japan to be able to enjoy "CR Super Jetter" in pachinko halls from the middle of November.

Sales of this new pachinko machine have been incorporated into the Fields Corporation business plan for the fiscal year ending March 2006.
