Fields Corporation (Head office: Shibuya-ku, Tokyo; President and CEO: Hidetoshi Yamamoto) announces the nationwide release of the Rodeo Co., Ltd.'s new pachislot machine "Sakigake!! Otoko Juku."

The new pachislot machine features characters from the "Sakigake!! Otoko Juku" series of comics drawn by Akira Miyashita, which appeared in the *Weekly Shonen Jump* magazine from 1985 to 1991. The launch of the "Sakigake!! Otoko Juku" pachislot machine follows Fields' January 2006 nationwide release of Sammy Corporation's pachinko machine "CR Sakigake!! Otoko Juku," which has gained considerable popularity.

This machine is equipped with the industry's first 3-D CG-enhanced "Real LCD Reel" on a 13-inch full-color LCD screen. The Real LCD Reel provides a variety of reel displays, including the disappearance of patterns, running flames, and unified reels. Moreover, the unique LCD presentation in combination with this new device reproduces a sizzling world of macho students in a private boy's school called Otoko Juku, with exciting fights and well-known scenes. The machine should also allow game players to have a simulated experience and enjoy the exciting emotions of the original story, which can be only enjoyed on a full-color LCD screen.

With unprecedented reel action, the new "Sakigake!! Otoko Juku" pachislot machine will have wide appeal to fans of comics as well as pachislot enthusiasts.

"Sakigake!! Otoko Juku" is scheduled for delivery in late March 2007 to pachinko halls throughout Japan.

The release of this machine has been incorporated into the Fields Corporation business plan for the fiscal year ending March 2007.
