(1) Analysis of operating results

[1] Overview of operations for the 3 months ended June 30, 2015 (April 1, 2015 to June 30, 2015)

The Company posted net sales of ¥17,140 million (up 129.8% year-over-year), operating loss of ¥1,005 million (versus operating loss of ¥2,509 million for the same period of the previous year), ordinary loss of ¥864 million (versus ordinary loss of ¥2,254 million for the same period of the previous year), and net loss attributable to owners of parent for the period totaling ¥867 million (versus net loss attributable to owners of parent of ¥1,502 million for the same period of the previous year). These results were generally in line with the forecast for the year ending March 31, 2016.

The main factors behind these results are as follows.

In pachinko/pachislot machines, we launched titles complying with changes to the model certification test method for pachislot machines in September of last year, including “EVANGELION—Spear of Hope.” These titles now enjoy a certain following among users. We continue to view shifts within the industry such as changes in regulations as business opportunities to expand the market and accordingly, we are pursuing various marketing measures based on a plan to sell pachinko/pachislot machines with impressive game function and entertainment elements.

In the first quarter under review, we pursued operating activities as outlined in the table below. The number of pachislot machines sold increased by about 23,000 over the previous year to 28,000 and the number of pachinko machines decreased by about 22,000 to 15,000. This resulted in an approximately 200 increase in the total number of pachinko/pachislot machines to 44,000.

Results in other businesses were also generally in line with forecasts.

<Titles already launched and titles currently being marketed (as of July 31, 2015)>

Pachislot machines	Month of delivery
EVANGELION—Spear of Hope	June 2015
Resident Evil 6	July 2015

CR Million GOD RISING	July 2015
CR Martian Successor NADESICO*	August 2015
CR Sakigake Otokojuku*	August 2015
CR EVANGELION X*	September 2015

(Note) Asterisks indicate titles being marketed as of July 31, 2015.

The main initiatives to create and commercialize IP are described below.

The Group carries out a cyclical business in which it develops Intellectual Property (IP), such as characters and stories, in cross-media formats as its medium-to-long-term growth strategy.

Our main initiatives were to continue focusing on the creation of IP, primarily through the comic “HERO’S” Monthly. We worked on several film projects, and planned and developed IP into games and pachinko/pachislot machines with the aim of developing the stories published in this comic in cross-media formats.

In the TV fields, broadcasts of “Ultraman X” began, and in the Web distribution field, “NINJA SLAYER FROM ANIMATION” was distributed. We also developed products for children and adults utilizing various characters in conjunction with film development through TV and Web distribution.

In merchandising, a means of generating revenue from IP, we endeavored to reinforce the revenue base in diverse fields. We worked to improve game elements further in the social game field by making large-scale updates to “ANIMAL × MONSTER”, which was launched in the previous fiscal year, and devised new plans for collaborations. Moreover, in addition to product development for existing characters, we launched “A MAN of ULTRA” (licensed brand), which brings concepts and world views into concrete shape. In the live entertainment field, experiment-based live entertainment shows utilizing the “Ultraman series” were presented overseas as well as in Japan. In the pachinko/pachislot field, we carried out marketing activities for multiple pachinko/pachislot machines utilizing IP, such as “Resident Evil 6” and “CR EVANGELION X”, to be launched in the second quarter of this fiscal year. The Group made K.K. Aristocrat Technologies, a pachislot machine manufacturer, and K.K. Spiky subsidiaries in the first quarter, and will steadily develop products utilizing these companies’ hardware, software and other assets.

## 2. Summary information (notes)

### (1) Transfer of important subsidiaries during the quarterly consolidated period under review

None

### (2) Application of the accounting method specific to quarterly consolidated financial statements

#### Assessment of tax expenses

The Company applies the method that reasonably estimates an effective tax rate to be assessed on income before income taxes for the year ending March 31, 2016, including this three months ended June 30, 2015, after accounting for the tax effects, and multiplies income before income taxes during the three months ended June 30, 2015 by such estimated effective tax rate.

### (3) Changes in accounting principles and accounting estimates, and revisions/restatements

#### (Changes in accounting policies)

Effective from the first quarter of the current fiscal year, the Company has applied the “Accounting Standard for Business Combinations” (ASBJ Statement No. 21, September 13, 2013), the “Accounting Standard for Consolidated Financial Statements” (ASBJ Statement No. 22, September 13, 2013), the “Accounting Standard for Business Divestitures” (ASBJ Statement No. 7, September 13, 2013), and other accounting standards. As a result, the method of recording differences caused by changes in the Company’s ownership interests in subsidiaries in the case of subsidiaries under ongoing control of the Company was changed to one in which such amounts are recorded as capital surplus, and the method of recording acquisition-related costs was changed to one in which such amounts are recognized as expenses for the fiscal year in which they are incurred. Furthermore, for business combinations carried out on or after the beginning of the first quarter of the current fiscal year, the accounting method was changed to one in which the reviewed acquisition cost allocation resulting from the finalization of the tentative accounting treatment is reflected in the quarterly consolidated financial statements for the fiscal quarter in which the business combination occurs. In addition, changes have also been made in the presentation of quarterly net income, etc. and also in nomenclature from “minority interests” to “noncontrolling interests.” The consolidated financial statements for the first quarter of the previous fiscal year and those for the entire previous fiscal year have been reclassified to reflect these changes in presentation.

In the quarterly consolidated cash flow statement for the first quarter of consolidated fiscal year under review, cash flow related to the acquisition or sale of shares in a subsidiary that does not involve changes in the scope of consolidation is listed under cash flows from financing activities. In addition, cash flow concerned with expenses related to the acquisition of shares in a subsidiary that does involve changes in the scope of consolidation, as well as expenses incurred in the acquisition or sale of shares in a subsidiary that does not involve changes in the scope of consolidation are listed under cash flows from operating activities.

The Accounting Standard for Business Combinations, etc. is applied in accordance with the transitional treatment set forth in paragraph 58-2 (4) of the Accounting Standard for Business Combinations, paragraph 44-5 (4) of the Accounting Standard for Consolidated Financial Statements, and paragraph 57-4 (4) of the Accounting Standard for Business Divestitures, and will be applied from the beginning of the first quarter of the current fiscal year and on into the future. The resulting impact on operating loss, ordinary loss and loss before income taxes and minority interests each increased ¥105 million in the first quarter of the consolidated fiscal year under review.
