FIELDS CORPORATION

## Notice of workplace vaccinations (third time) of the Coronavirus Disease (COVID-19)

In accordance with the government's policy on workplace vaccinations of the coronavirus disease (COVID-19), FIELDS Group reports that it has been conducting the workplace vaccinations (third time) of the COVID-19.

This vaccination aims at ensuring the security and safety of the pachinko and pachislot industry and everyone involved with our group, and contributing to the development of the industry. This vaccination covers approximately 1,000 inoculation applicants including employees, staff and their families/ related persons of our group and member companies of Tokyo Pachinko and Pachislot Cooperative Association (Toyukyo) and others.

### ■Overview of workplace vaccination in March 2022

#### • Date of implementation

March 3 (Tuesday), 4 (Friday), 23 (Wednesday) and 24 (Thursday)

#### • Venue

FIELDS CORPORATION Head Office (Shibuya-ku, Tokyo)

#### • Vaccines used

Vaccines manufactured by Takeda Pharmaceutical Company Limited / Moderna, Inc.

#### • Subjects/ number

Employees, staff and their families/ related persons of our group and member companies of Toyukyo and others approximately 1,000 people

\*This vaccination covers those who have completed the second vaccination more than six months .

Reservation website for the third vaccinations by FIELDS Corp.

### ■Review of those who have been immunized

We received the following reviews from those who received the immunization.

“I finished the vaccination very smoothly without congestion. I was very pleased to have been inoculated with the distribution of antipyretic analgesics and antibody test kits. Thank you very much.” ( Man in his 40s, March 4)

“The number of subjects was limited for each hour, and the staff guided smoothly from reception to immunization. The venue was spacious, and I received the vaccination comfortably without being crowded. I think it was very good.” (Man in his 30s, March 4)

We operate the infection control measures in accordance with strict rules to prevent the spread of infections; the employees work from home if they can, and those who need to go to office thoroughly take their temperature and disinfect.

Going forward, our Group will continue to give top priority to preventing the spread of infections both inside and outside the companies and to ensuring the safety of our business partners, participants and employees and their families, and will promptly decide and implement response policies based on policies and action plans by the government and health centers.
